

The diagram shows a rectangular building layout with the following dimensions and features:

- Overall Dimensions:** The building is 15,000 units wide and 10,000 units deep.
- Internal Dimensions:** The internal width is 14,500 units, and the internal depth is 9,500 units.
- Room Layout:**
  - Top Section:** A long horizontal corridor or room, 14,500 units wide, divided into sections of 3,200, 3,200, 3,200, 3,200, 3,200, 3,200, 3,200, 3,200, 3,200, and 1,950 units.
  - Bottom Section:** A long horizontal corridor or room, 14,500 units wide, divided into sections of 3,200, 3,200, 3,200, 3,200, 3,200, 3,200, 3,200, 3,200, 3,200, and 1,950 units.
  - Central Section:** A vertical corridor or room, 9,500 units deep, divided into sections of 2,700, 2,750, and 500 units.
  - Side Rooms:** There are two rooms on the left side, each 3,200 units wide and 2,700 units deep. There are also two rooms on the right side, each 3,200 units wide and 2,700 units deep.
- Annotations:**
  - A dimension of 1,550 units is shown for a section of the top corridor.
  - A dimension of 1,000 units is shown for a section of the bottom corridor.
  - There are two small circles with arrows pointing outwards from the top and bottom walls, likely representing ventilation or lighting points.
